

EVER WONDER WHAT HAPPENS TO

**Then
wonder no more!**

Every so often Veolia open their sites to the public (they refer to them as 'Wonder Days') and East Sussex CTC have their name down to visit the following two sites:

Newhaven Energy Recovery Facility (ERF)
and
Woodlands In-Vessel Composting (Whitesmith).

Unfortunately, the coordinators at Veolia are unable to provide exact dates for these events! If you are interested in coming along then please email Steve on steve.southgate.cuk@gmail.com detailing the sites that you are interested in visiting and the names of attendees. Once dates are known you will be contacted to check if you are still wishing to attend.

Note, numbers are limited so will be on a first come basis.

Please observe the following

- If you are employed as a consultant, or in a consultancy firm then Veolia need to be advised prior to any visit.
- If you have a pace maker then due to safety issues you will be unable to attend.
